

SUMMARY

Software developer with 1+ year of experience building scalable web applications using React.js, Next.js, Node.js, and modern JavaScript frameworks. Proven track record of optimizing application performance. Strong foundation in computer science with MCA degree (8.4 CGPA). Passionate about building efficient, user-centric solutions.

TECHNICAL SKILLS

Languages: JavaScript, Java, Python, HTML5, CSS3, SQL
Frontend: React.js, Next.js, Typescript, Tailwind CSS,
Backend: Node.js, Express.js,
Databases: MongoDB, MySQL, Firebase
Tools & DevOps: Git, GitHub, VS Code, Postman, Vercel,
Key Concepts: React Hooks, JWT, REST APIs, JSON, Postman

WORK EXPERIENCE

Frontend Developer Intern, Code Inbound LLP Nov 2024 – Feb 2025

- Developed **5+ interactive real-time dashboards** for Network Monitoring System (NMS) using React.js and TypeScript, improving UI responsiveness by **25%**.
- Integrated REST APIs to support real-time data visualization with **2s latency** across all monitoring dashboards.
- Implemented device discovery, SNMP/ICMP monitoring, bandwidth/traffic tracking,

Frontend Developer intern, Zylentrix Ltd March 2025 – Sep 2025

- Developed production-ready React and Next.js applications for digital marketing platforms at UK-based global consultancy.
- Built real-time analytics dashboards tracking campaign performance and user engagement for 20+ clients.
- Improved page load time by **30%** through strategic lazy loading and code splitting implementation.

Full Stack Developer, Campaign Harvest Sep 2025 – Jan

- Developed and maintained scalable web applications using **React.js, Node.js, and Express.js**.
- Designed and implemented **RESTful APIs**, enabling seamless communication between frontend and backend systems.
- Integrated APIs with frontend interfaces to ensure smooth data flow and real-time updates.

PROJECTS

Cine AI – Movie Recommendation System — *React, Firebase, Gemini API* — Live Demo

- Built AI-powered movie recommendation platform using prompt-based queries with Gemini API integration.
- Optimized Firebase Firestore queries for real-time personalized recommendations with minimal latency.
- Implemented user preference storage and search optimization for faster response times.

Hotel Booking System — *React, Node.js, Express, MongoDB* — Live Demo

- Developed full-stack hotel booking system with role-based access control (Admin/User) and JWT authentication.
- Implemented secure REST APIs for room availability, booking confirmation, and cancellation features.
- Built responsive UI with real-time availability updates and seamless booking workflow.

Interview Scheduling Web App — *React, Node.js, Express, MongoDB* — Live Demo

- Created interview scheduling platform with full CRUD operations and admin dashboard for user/schedule management.
- Integrated analytics to track user activity while ensuring secure data handling and privacy compliance.
- Developed notification system for interview reminders and schedule updates.

EDUCATION

Master of Computer Applications (MCA), Visvesvaraya Technological University, Bangalore 2024 CGPA: 8.3/10
Bachelor of Computer Applications (BCA), Vinoba Bhave University, Hazaribagh 2022
CGPA: 7.67/10
