

SUMMARY

Software Developer with 1+ year of experience building web applications using React.js, Next.js, and Node.js. Strong in modern JavaScript frameworks and performance optimization. Holds an MCA degree (8.4 CGPA) with a solid computer science foundation. Passionate about creating efficient, user-friendly solutions.

TECHNICAL SKILLS

Languages: JavaScript, Java ,python HTML5, CSS3, SQL
Frontend: React.js Redux, Next.js, Typescript Tailwind CSS,
Backend: Node.js, Express.js,
Databases: MongoDB, MySQL, Firebase
Tools &: Git, GitHub, VS Code, Postman, Vercel,
Key Concepts: React Hooks, JWT, REST APIs, JSON

WORK EXPERIENCE

Frontend Developer Intern, Code Inbound LLP

Nov 2024 – feb 2025

- Developed **interactive real-time dashboards** for Network Monitoring System (NMS) using React.js and TypeScript, improving UI responsiveness by %.
- Integrated REST APIs to support real-time data visualization with across all monitoring dashboards.
- Implemented device discovery, SNMP/ICMP monitoring, bandwidth/traffic tracking,

Frontend Developer intern, Zylentrix Ltd

March 2025 – Sep 2025

- Developed production-ready React and Next.js applications for digital marketing platforms at UK-based global consultancy.
- Built real-time analytics dashboards tracking campaign performance and user engagement for 20+ clients.
- Improved page load time by % through strategic lazy loading and code splitting implementation.

Full Stack Developer, Campaign Harvest

Sep 2025 – Jan

- Developed and maintained scalable web applications using **React.js, Node.js, and Express.js**.
- Designed and implemented **RESTful APIs**, enabling seamless communication between frontend and backend systems.
- Integrated APIs with frontend interfaces to ensure smooth data flow and real-time updates.

PROJECTS

Cine AI – Movie Recommendation System — *React, Firebase, Gemini API* — Live Demo

- Built AI-powered movie recommendation platform using prompt-based queries with Gemini API integration.
- Optimized Firebase Firestore queries for real-time personalized recommendations with minimal latency.
- Implemented user preference storage and search optimization for faster response times.

Hotel Booking System — *React, Node.js, Express, MongoDB* — Live Demo

- Developed full-stack hotel booking system with role-based access control (Admin/User) and JWT authentication.
- Implemented secure REST APIs for room availability, booking confirmation, and cancellation features.
- Built responsive UI with real-time availability updates and seamless booking workflow.

Interview Scheduling Web App — *React, Node.js, Express, MongoDB* — Live Demo

- Created interview scheduling platform with full CRUD operations and admin dashboard for user/schedule management.
- Integrated analytics to track user activity while ensuring secure data handling and privacy compliance.
- Developed notification system for interview reminders and schedule updates.

EDUCATION

Master of Computer Applications (MCA), Visvesvaraya Technological University, Bangalore

2024 8.3/10
